

Safety Plan

Safety At School

- If I have experienced sexual harassment, dating violence, sexual assault, or stalking I can tell the following people at my school:
 - _____
 - _____
 - _____
 - I can ask _____ or _____ to walk with me to classes or in the parking lots.
 - I am aware that Title IX obligates my school to respond with supportive measures if my school receives federal funding and the incident occurred at my school or a school sponsored event.
 - This means that my school is obligated to provide supportive measures such as:
 - Issuing a no-contact order
 - Moving me to a new dorm or a new locker
 - Allowing me to change my class schedule even after classes have started
 - Help me get tutoring, extra credit, or other academic support
 - Help me get connected to counseling resources
 - If my abuser is not a student at my school, I can ask that my abuser be banned from school grounds and events.
- * (My school is not legally obligated to do this, but they may choose to.) *
